DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

In claim 10, line 9, a first well is recited as being enclosed within said first well. It appears that the second occurrence of this phrase should read "said first buried well". In addition, several claims refer to higher numbered elements when intermediate numbered elements have not been explicitly recited. For example, claim 11, refers to a "fourth" and "fifth" well while independent claim 10, from which it depends, has only referenced a first well and a first buried well. That is, neither claim has referenced any intermediate "second" or "third" wells. Similarly, independent claim 12, jumps from a "first" buried well to "fifth", 'sixth", 'seventh", and "eighth" wells, without any mention of any intermediate numbered wells. Claim 12 also mentions "first" and "second" transistors, and then jumps to ""sixth" and "seventh" transistors. Similar situations exist in claims 13-15.

Applicant is required to rename the various elements for clarity and consistency.

Prosecution on the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
